Product highlights

1.3 Mega Pixels (interpolated)

Your webcam gives you 1.3 Mega Pixels (interpolated) for both video and photo resolution. So, you can use it to take high-quality photos that still look great when printed as larger-sized images.

30 frames per second video

Sit back and enjoy superior viewing with 30 frames per second video. This gives you smoother video images and a better all-round video-chatting experience.

Low light enhancement

Low light enhancement improves the brightness of the image under low light conditions.

Rotating body

Enjoy webcamming freedom with a clever rotating body that lets you aim the camera wherever you want. Just twist the camera 360° in any direction to film anywhere in your room without moving the webcam at all.

Easy set-up and use

Setting-up and using your webcam is easy as 1-2-3. 1. Install software 2. Plug in camera 3. Video call instantly

Standalone external microphone

With a separate external microphone, you have the freedom to place it where it best picks up your voice to add high-quality audio to your video chats.

Compatible with all services

The webcam and its software have been designed with all instant messaging services in mind. Add video to Skype, Windows Live Messenger, Yahoo! Messenger, AOL Instant Messenger and other services.

Snapshot button

With just one press of this button, your webcam takes a picture automatically. It's a fun way to share your pictures by adding them to e-mails, web pages or documents.

Mounts securely

The multifunctional stand makes it easy for you to mount the webcam securely on top of any monitor, laptop or desk. This design is especially secure and won't move or fall when you're in the middle of a conversation.
